

Acetaminophen (Tylenol)

For use over 7 weeks of age. Other than for a vaccine reaction, do not give acetaminophen to an infant under 3 months of age without consulting MD.

Give one dose every 4 hours as needed.

Please be aware that there has been a change by the manufacturers. Products labeled as Infants acetaminophen may be available as EITHER 80mg/0.8ml or 160mg/5ml. Please check the label of your medication to ensure that you are using the correct amount for the product that you have.
